COMPUTER TRAINING VENUES

Cliftons Computer Training rooms are custom designed facilities capable of accommodating up to 135 people in individually climate controlled rooms, ensuring a comfortable and productive learning environment.

State-of-the-art equipment includes computers with 12GB capacity able to support the most sophisticated applications. Our patented, ergonomically designed student workstations incorporate an additional centre monitor allowing attendees to simultaneously view the instructors screen as well as their own.

Dedicated on-site IT support installs and tests your software on your own secure network and are on call throughout your program. A full suite of tailored services including monitor upgrades, additional RAM, high-speed Internet access and data projectors are available in all venues.

Key features:

- State-of-the-art IT technology
- Flexible classroom sizes from 2-135 people
- Patented ergonomic workstations
- Secure network and high-speed Internet connection
- Centre monitor viewing systems
- Networked Pentium IV 3Ghz-40 GB HDD (min), 4 GB cards (min), 2-12 GB ram, 15"-17" monitors, 3 phase power
- Internal telephones for immediate support
- Room access security

Why not streamline the organisation and delivery of your event by utilising Cliftons full suite of training and meeting solutions? From Online Registration to printing of course materials, Cliftons is there to support you every step of the way
