

- Computer Training Facilities
- Conference/Seminar Facilities
- Video Conferencing Facilities
- Facility Management

“Cliftons were key to the successful rollout of an 11 month technical training program for EDS across Asia Pacific. They provided a service that allowed our team to focus purely on the task of training delivery. The Cliftons team were professional, efficient, flexible and always willing to go the extra step to help make every training event a success.”

Callan Hanley, Programme Manager and Technical Development Consultant
Global Learning and Development, EDS Asia Pacific Region

... DIVERSE ROOMS IN MULTIPLE LOCATIONS WORLDWIDE

**Train.
Succeed.
Cliftons.**

With over ten years of business and facility operation experience, Cliftons are Asia Pacific's #1 provider of outsourced computer training, conference / seminar, video conferencing and serviced office facilities. The Cliftons network allows you to make a booking instantly - anywhere, anytime. Our Singapore and Asia Pacific network covers both CBD and regional locations and will save you time, effort and money.

Cliftons Training Facility Network has been utilised to assist businesses to:

- Educate teams on core business systems
- Implement process improvements and efficiencies
- Build IT skills throughout the organisation
- Deliver projects that enable business growth
- Link business and IT strategies and plans
- Improve security

... how can we help you?

Having the resources, expertise and experience, Cliftons are able to partner and support organisations with their training facility requirements. Cliftons have facilitated international software rollouts, technical training and conferences for many of Asia Pacific's leading financial services, IT and educational organisations, as well as government departments.

Cliftons Training Facilities can and have been utilised for many different training purposes, including:
